

The request for clarification of the Bidding documents

Subject: The answer to the question for IOP/2 - 2014 whose subject is Execution of works on the construction of Centres of excellence in Kragujevac.

1. Question:

Page 24 of 75, b) other persons engaged

- at least one (1) civil engineer, architect or mechanical engineer with experience in carrying out work on the construction of laboratory space, minimum of 3 similar contracts and minimum 10 years of work experience

Does the laboratory should have and how many square meters of area or is it a part of the construction of a hospital or school, that are part of the lab which is located in the constructed building?

Response:

It is essential that the designer has experience in dealing with at least three similar contracts, or at least three buildings which in its functional scheme have laboratory spaces. That can be hospitals, schools and other facilities that have laboratory spaces. The point is that the designer has experience in the construction of laboratory space.
