

Subject: Answer to the question for IOP/2 - 2014 whose subject is the Execution of works on the construction of Centres of excellence in Kragujevac.

1. Question:

In your response no.411 from February 6th, 2015, regarding question 1, you stated that:

- “if they have been guilty of grave professional misconduct proven by any means which the Contracting authority can justify, a confirmation issued by the Serbian Chamber of Engineers”;
- when you say confirmation, do you mean individual confirmations issued by the Serbian Chamber of Engineers for every single engineer (which relates to the validity of the licence and the fact that the engineer has not been revoked of the licence by decision of the Chamber’s Court of honour) or do you mean some other confirmation of the Serbian Chamber of Engineers, and if so, which exactly?

Response:

We mean confirmations which, within their scope of works and record keeping, the Serbian Chamber of Engineers can issue to the tenderers, and which in general are related to the tenderer as a legal entity and their partners in case of a joint venture, in other words that in regard to the responsible person or other employees in a legal entity no grave professional misconduct has been determined

President of the Commission

Olja Jovanovic, BSc. Arch.
