Please answer the following question:

Lot: 4

Location: Sremski Karlovci

Bill of quantities - Construction works and construction-specialist's trades

Section: Flooring

Position: 09-01-Laminate is defined as laminate flooring thickness  $d = 11$  mm...

We deem that there is no 11 mm thick laminate in the required class on the Serbian market. We have contacted the manufacturers and distributors of the laminate and they all offer a laminate thickness of 10 mm or 12 mm, and they claim that 11 mm does not exist. Could you change the description of the laminate and specify the thickness which is available on the market: either 10 mm thick or 12 mm thick?

**Answer:**

Please see Corrigendum No. 2.
